The DB Rüd Blass Swiss Real Estate Funds indices will be admitted by SIX Swiss Exchange (SSX) to the SXI Real Estate Index family on 1 October 2016. The indices were first calculated by SSX on behalf of Deutsche Bank in July 2001 and have an index history going back to 1960. The representative benchmark for listed Swiss real estate funds comprises a maximum of the 10 largest Swiss real estate funds and is calculated as an NAV-weighted and equal-weighted index.

As part of this inclusion, the SIX Swiss Exchange Management Committee has decided to make a name change and revise the index rules. The changes will become effective as of 1 October 2016.
